

Assignment 5: Types of CSS

Method 1: Internal CSS

The green heading above and this yellow box are styled using Internal CSS inside the `<style>` tag.

Method 2: Inline CSS

This specific line is styled using Inline CSS inside the element tag.

Method 3: External CSS

To use External CSS, we create a file named `style.css` and link it like this:

```
<link rel="stylesheet" href="style.css">
```
